Workshop: How to be an Effective, Successful, Happy Academic

Register now! The Healthy Outcomes Theme group invites all ACHRI Faculty to join internationally acclaimed authors and workplace effectiveness advocates Dr. Alex Clark, PhD and Bailey Sousa, PMP as they take us on a whirlwind tour of how to ensure optimal personal and career growth in clinical research. Irrespective of your age, discipline or career stage, come to understand more of what you should do for success in work and life. Space is limited! Register for the workshop and dinner.

Dr. Chad Bousman’s research shows precision medicine in treating depression highly effective

Congratulations Dr. Bousman on this impressive research. Dr. Bousman conducted a systematic review and meta-analysis that examined treatments for people with major depressive disorders. Dr. Bousman found that of the 1737 people, those who received genotype-guided therapies were 75% more likely to achieve symptom remission compared to those who received regular treatment. The findings were published in the journal Pharmacogenomics. Dr. Bousman is an assistant professor in the
Department of Medical Genetics. His research aims to discover, develop, and evaluate genomic-based tools with the utility to guide clinical decision-making and improve mental health outcomes.

IN THE NEWS

Dr. Kristin von Ranson explains how obsessive healthy eating can become unhealthy

Dr. Kristin von Ranson, PhD, says that there is no agreement yet on how to define orthorexia nervosa - a proposed disorder for those who take healthy and clean eating too far. Orthorexia nervosa may cause serious health issues, and research is needed to determine whether it's a distinct eating disorder or another kind of mental disorder. Dr. von Ranson's research focuses on eating disorders, specifically questions related to etiology, classification, and assessment of eating problems and body image. As well as being the director of the Eating Behaviours Laboratory, Dr. von Ranson is a professor in the Department of Psychology, and a member of the Behaviour and Developing Brain Theme.

TRAINEE UPDATE

Trainee funding:
Now open: ACHRI Summer Studentship Award Competition
Deadlines: February 8 (student portion) and February 15 (supervisor portion) Apply
Call for applications: MNCY SN 2019 Studentship Competition
Deadline: February 18
Notification of award: March 15
Studentship begins: May 1 Apply

FOR MORE INFORMATION VISIT ACHRI Trainee Weekly Bulletin

GRANT OPPORTUNITIES

Child Health Research Funding Opportunities

SSHRC Connection Grants
RSO Deadline: January 30, 2019 at noon
Contact: Katie Ryan

SSHRC Research Data Management Capacity Building Initiative
RSO Deadline: January 30, 2019 at noon
Contact: Katie Ryan

CIHR Project Grant
Registration Deadline: February 6, 2019
RSO Internal Deadline for Full Application: March 4, 2019 at 9:00 am
Contact: Anna LeMarquand
---------------------
SSHRC Partnership Engage Grants
RSO Deadline: March 13, 2019 at noon
Contact: Katie Ryan

In the Lab: Dr. Donna Slater's lab
Dr. Donna Slater's lab is focused on the role and regulation of prostaglandin synthesis and prostaglandin receptor signaling within the uterus during pregnancy and parturition. In obstetrics, abnormal or inappropriate muscle contractions can cause major clinical problems such as pre-term labour or post-partum hemorrhage. Dr. Slater is an associate professor in the departments of Physiology and Pharmacology, and Obstetrics and Gynaecology. Conferences, Meetings and Workshops
Jan. 31
AI, Deep Learning, and Machine Learning in Medical Imaging: a Pop-Up Workshop!
Presented by: Saul Calderon
Hosted by: Dr. Pascal Tyrrell, PhD
Location: Join virtually
Survey to register
Feb. 3
Pediatric Emergency Research Canada Annual Scientific Meeting
Registration is now open for the PERC Annual Scientific Meeting on Sunday, February 3, 2019 to Thursday, February 7, 2019
Location: Fairmont Banff Springs, Alberta
Feb. 11
Panel discussion on Women’s Cardiovascular Health
Speakers include ACHRI's Dr. Jennifer Thompson on cardiovascular health of infants
Location: Central Public Library
Register
Feb. 13
Integrating research and practice in primary substance use prevention for adolescents: The case of Iceland
Speakers: Dr. Alfgeir L. Kristjansson, PhD
Location: KNB 126, Kinesiology Block B Building
Feb. 27
Cumming School of Medicine Celebration of Excellence
Location: HRIC Atrium

May 9
7th Annual StemCell Talks YYC
Contact: sctalkscalgary@gmail.com

May 29
Child Health Research Symposium
Speakers: Dr. Janet Rossant, PhD, FRS, FRSC
Location: Libin Theatre, Foothills Campus

June 5
Owerko Centre Conference
Speakers: Dr. Yona Lunsy, PhD and Dr. Russell Schachar, MD
Location: Theatre Four, HSC, Foothills Campus

Lectures
Jan. 29 (12:00pm - 1:00pm)
Child Health Research Rounds - Out of the codeine era and into an opioid crisis: Pain management for children in today's acute care setting
Speaker: Dr. Naveen Poonai, MD
Location: ACH Conference Room 3

Jan. 31 (2:00pm - 3:00pm)
Addressing bias in letter writing seminar
Speakers: Dr. Steven Vamosi, PhD and Dr. Jessica Theodor, PhD
Location: HSC G382

Feb. 6 (12:00pm - 1:00pm)
Owerko Neurodevelopmental Rounds - Neuroimaging research and translation to clinic
Speakers: Dr. Helen Carlson, PhD and Brandon Craig
Location: CDC Room 100

Alberta Children's Hospital Research Institute is supported by generous community donations through the Alberta Children's Hospital Foundation. We believe in a healthier and more prosperous future for children through research.
